

Sagamore Software
Fall/Winter 1990 Software Catalog

Atari 8-bit Edition - for Atari 400, 800,
1200, 600XL, 800XL, 65XE, and 130XE

Sagamore Software 2104 Arapahoe Dr. Lafayette, IN 47905

Welcome!

To our Fall & Winter 1990 catalog.

We have 500 double-sided disks for you to choose from this time which, as far as we know, is the largest collection of Atari 8-bit software ANYWHERE.

We wish to thank everyone who has ordered from us. Your support makes it possible for us to continue to support the Atari computer line.

All of our disks are double-sided disks and are \$3.00 each. You don't need a double-sided drive to use them - just flip the disk over to use the back side.

We use only top quality name-brand disks - Verbatim Teflon-coated disks when we can get them. (We almost always have them.)

We provide a disk duplicating service and are not responsible for the contents of any disks. We guarantee only that the disk will boot, but we cannot guarantee individual programs. If you get a defective disk, return it to us within 10 days and we will exchange it for the same disk only.

If a disk is marked Adults Only, you must sign a statement stating that you are 18 years old or older.

SHIPPING INFORMATION -

US and Canada - If you order more than 10 disks, we will pay the shipping costs. If you order fewer than 10 disks, please add \$2.00 for shipping. If you want your order shipped COD, please add \$2.75. Payment must be by check or money order. (Checks must clear before we ship.)

Foreign - All foreign orders must include \$5.00 for shipping. Payment must be by money order or cashier's check in US funds. Make sure that your Customs allows importation of software. We are not responsible for software confiscated by customs. Also, orders shipped to countries without parcel insurance are done so at your own risk.

Indiana residents - Please add 5% of your total order for sales tax.

GAMES

G01 - Acrobat, Bankshot, Baseball, Bonk, Bowling, 2 Football games, 4 Golf games + a construction set, Incoming, and 3 Skiing games. 16 games. (mostly BASIC)

G02 - Avalanche, Barricade, Climber, Crickets, Dinowar, Fillerup, Froggie, Hawks, Munch, and lots more. 19 games. (mostly machine language)

G59 - Walk-Thrus - Detailed instructions on how to solve Enchanter, Infidel, Amazon, King's Quest, Ghost Town, Sorcerer of Cloumorgue Castle, Ultima II, Sorcerer, Suspended, Adventure 550, and Mindwheel.

SAGAMORE SOFTWARE

G60 - Walk-Thrus - Detailed instructions on how to solve Ultima III, Planetfall, Seastalker, Masquerade, Pirate Adventure, The Wizard and the Princess, Ulysses and the Golden Fleece, Starcross, Alice in Wonderland, Mystery Funhouse, Pyramid of Doom, and Voodoo Castle. This disk also has hints for a bunch of adventure games.

G61 - America's Cup - A sailing race game.

A Christmas Eve Nightmare - A text adventure that takes place on Christmas Eve.

G62 - Tauz/Kelb - a couple of neat board games. Side B has instructions.

G63 - Infantry Squad - A war game, similar to SSI war games. Also has a Battlefield Construction utility.

G64 - Holdem Poker - a computer version of Texas Holdem Poker.

130XE Baseball Vers. 2 - A good baseball simulation. Must have at least 128K to play.

G65 - Side A has the Ultima III character editor. Side B has Top Gun (a pinball game), Wombel (a neat maze game from Germany), Secret Agent Mission 1, Marble Magic, and another Ultima III utility.

G66 - Voyage Through Time, Hats, Crazy Mazes, Froggie, The Duellists, Fatal Connection, Crazy Clown Jumper, Electra Ball, Star Rider, and E-Racer.

G67 - Side A has some BASIC games - Cambodia, Crazy 8, Convoy, Erotica X, and Pebbles. Side B has a text adventure called Mission Moon.

G68 - Snake Bite II, Tiltar, Dragon, Giant Monster Combat, Snake, Black Castle, Hexapawn, International Bridge Contractors, Fallsafe, Paranoia, Gobbler, Trident, and Robot Battle. These are all BASIC games.

G69 - Microdungeon, The Slave Cellars of Golgoth, Guns, Advanced Hammurabi, Recall, Titan, Blackjack, Poker Solitaire, Atari Karate, Launch Code, and Eliza. These are all BASIC games.

G70 - Side A has Positioning Puzzles - Xchange Checkers, Square Dance, Six Knights Puzzle, Exchange, Four X Four Square, and Pairs. Side B has Lightcycles, Star Rider, Cave, Danger Hunt, Defending World, Jumping Ghost, Mission X, and Rollerball.

G71 - Side A has Dragon's Quest 3.14 - A Dungeon & Dragons-type adventure game. Side B has Wmaug Adventure which is an on-line game for BBSSs and requires Sportados.

G72 - Star Lords - An interactive adventure/strategy game. Up to 4 can play.

G73 - Side A has Championship Roll'em, Spades, and Space Shot Pinball. Side B has Hidden Fortress II and III.

G74 - Computer Cricket - Europe's version of Baseball.

SAGAMORE SOFTWARE

G75 - Side A has Aftermath which is an adventure game that takes place 40 years after a nuclear war. Side B has the Wizard Adventure Creator - create your own adventure games!

G76 - Side A has Beneath the Pyramids - you're inside the Sphinx fighting monsters and solving puzzles to recover a gold statue. Side B has Sanctified Quest For Power - an adventure game similar to the Ultima games.

G77 - Pinball Games - Has 4 games made with Pinball Construction Set - T-Ball, The Plug, "polygonal", and Itsy Bitsy Pinball. Also included are some games to fill up the disk - Chaos, Nordic Ski, and Xpoker.

G78 - Side A has Cosmic Puzzle Player with 5 puzzles. Side B has Battle Star - a Star Trek simulation.

G79 - Side A has Gypsy - a graphic fortune telling game. Side B has Treasure Quest, The Lost City (both are graphic adventures), and Crab Nebula (an arcade game).

G80 - Space Trouble II - a graphic adventure from Germany. Takes up both sides of a disk and requires a 1050 disk drive (or a drive that can read enhanced density disks).

G81 - Zybex - an outstanding Scramble type game. Side B has 3 Tetris clones - Tetrix, Atartrix, and Fortress.

G82 - Epyx demos - playable demos of Pitstop, Jumpman Junior, Gateway to Apshai, Seawolf II, and Gunfight. Also included is ST-like version of the game of Life.

GIF

GIF stands for Graphic Interchange Format. Pictures created on other computers and converted to GIF format can be viewed on any computer that has a GIF viewing program (although some high resolution pictures won't work on the Atari.)

All of these pictures have been tested and can be viewed on the Atari.

Let me know if you like these as I have several hundred more of them.

GIF01 - Chipmunk, Porsche, Robocop, Great Red Spot, Opus, Shorts, Blastoff, Mt. Hood, Rushmore, Angel. Disk has viewer program on it.

GIF02 - Calvin2, City Lights, Death Star, Dinosaur, Falcon, Adgff, Batman, Bell22, Black Hole, Lovers, Mickey, Orbit, Rubens, Shower, Space. Has viewer program.

UTILITIES AND APPLICATIONS

U01 - Syncheck, Lazy Loader, Menuplus, Diskio, Calendar, Koolamenu, Home Inventory, Garden Planner, and many more. 29 programs.

U02 - Fogger, Tapefile, Satellite Locator, Smartsheet, Lottopix, and other application programs. 11 programs.

U03 - Side A has a number of ARC/unARC programs. Side B has MachDOS, a terrific DOS that will handle just about any density/disk/memory configuration.

U04 - Calendar, Picture Calendar, Biorhythms, Inventory, Disk Master, Disk Keeper, Bar Graph, and lots more. 10 programs.

U05 - TV Test, Docprint, Workshop, Sort, Life Insurance, Check Book, Diskfix, Ledger, and others. 14 programs.

U06 - Visicalc Templates. This is a double-sided disk full of Visicalc templates. Just load them into your Visicalc program and you're ready to go. 20 templates.

U07 - Syncalc Templates. This has all of the Visicalc templates from Disk U06 converted to use with Syncalc plus 2 others not on Disk U06. 22 templates.

U08 - Disklist, Finance, Backup, Flasher, Doswedge, Basic Fix, Lazymenu, Clock, Kwikdump, Kwiksave, and more. 31 programs.

U09 - Side A is Atari's DOS 2.5 and all of the utilities that go with it. Side B is Atari's DOS 3.0 that they originally included with all 1050 disk drives.

U10 - Side A is DOS 4.0 that Atari had written for their 1450XLD computers that were never produced. Side B has Index Printer, Super Index, Diskdir, and more. 9 programs on Side B.

U11 - Home Loan, Checkbook, Home Finance, Inventory, Database, Copytype, Spreadsheet, Business Math, Sinking Fund, and others. 29 programs.

U12 - Textpro Version 1.2A. An excellent full-featured word processor. Has macros, help screens, and much more. Full documentation on disk.

U13 - Textpro Version RS232. This is basically the same as disk U12 except that this is the RS232 version for use with the 850 or similar interface.

SAGAMORE SOFTWARE

U14 - Side A has Octadraw, AMS Autorun, Loancalc, Word Search, Thermowatt, Kilowatt, Doodle 10, Drawblox, Kill OSS, Budget Manager, First Aid, Doodle, Spider. 13 programs. Side B has a bunch of utilities for the 130XE computer.

U15 - Side A has Mypcopy - an excellent density-smart disk copier. Side B has Scrunch 3 - a program for compacting files.

U16 - This disk has a bunch of financial and home business programs including a mailing list program. 18 programs.

U17 - Side A has Copymate - an excellent density-smart disk copying program. Side B has Quicksort, Broderbund Unprotect (copies any Broderbund disk), Makeboot, Compactor, Color Align, Dotbar Generator, and lots more. 27 programs on side B.

U18 - Side A has Micropaint - an excellent paint program similar to Macromilustrator. Side B has the original Daisy Dot program - produces near letter quality printing in a variety of fonts. For XL/XE computers only. (See disk #U46 for more fonts.)

U19 - Speedcalc (spreadsheet), Speedscript (word processor), Poster, Kid's Menu, Scriptor (word processor), Graphs, and lots of other good stuff. 17 programs.

U20 - Lockpick, XLdos, Hot Poker, Ramedit, Superkey, Filefix, and more. 23 programs.

U21 - Side A has Dot Magic - similar to Daisy Dot - lets you mix different fonts and graphics on the same page. For XL/XE computers only. Side B has Sign Maker - you can put up to 2 Print Shop pictures and up to 3 different fonts on one page. Instructions on the disk. (See disk #U46 for more fonts.)

U22 - Speller, Printer Driver, Convert, Revision A Basic, Disk Mizer, Bar Graph, Renumber, Masher, Peekram, and lots more. 23 programs.

U23 - REM Remover, Debug, Hexpad, Disassembler, Extended BASIC, Keypad, Bincheck, Unicheck, and others. 25 programs.

U24 - Disktool, Seepic, Master Menu, Fader, Painter, Derez, and more. 12 programs.

U25 - Side A has lots of information on memory upgrades for the XL/XE computers. Side B has upgrade information for the 800 computer.

U26 - DOSwiz, Disk Assembler, Fix XL, CR Strip, XL Autorun, and a bunch of copy programs (disk to tape, tape to disk, disk to disk, etc.) 24 programs.

U27 - Magic Lantern, Super List, Copypus, Disk Directory, Checking, Check Print, Disk Fix, Happy (for Happy chip owners), and much more. 32 programs.

SAGAMORE SOFTWARE

U28 - R-Draw - powerful Microillustrator type paint program. Has instructions and sample pictures. Works on 130XE only (or other computer with extended memory.)

U29 - Rebuild, Relocate, Drive Test, Blochart, Tiny Menu, Access DOS 3 (converts DOS 3 files to DOS 2), Billboard Maker, CX85 Handler (for numeric keypad), Breakspeed (breaks large files into smaller ones), and lots more. 31 programs.

U30 - Atari CAD - a Computer Aided Design program for the Atari. Shareware.

U31 - Labels, Printer Drivers, Envelope Printer, Poster Maker, Mattedit (text editor), Mail List, Lister, Printer Test, and many more. 22 programs.

U32 - Lots of Player/Missile programs, and a bunch of different menu programs. Also Cartcopy, Code-Buster, Labels, and an Ultima cheat program. 40 programs.

U33 & U34 - RAMbrandt Paint Program - an excellent paint program with instructions and related utilities. This is a 2-disk set. Be sure to order both disks.

U35 - A number of good printer programs that let you print with different fonts. 17 programs.

U36 - Disassembler, Label Maker, Sector Utility, Ramtest, Ramtest, Directory Printer, Message Maker, Renumber, Budget, Polycopy, and more. 31 programs.

U37 - Daisy Dot II - the latest version of Roy Goldman's excellent printer program. Lets you do Near Letter Quality printing using as many different fonts as you want. Includes a modified Billboard program for adding graphics, complete instructions, and 19 fonts. (See disk #U46 for more Daisy Dot fonts.) (For XL/XE computers only.)

U38 - Alternate DOS, Scrunch, Disassembler, Formatter, Polycopy, Undelete (this one's saved me a few times), MicroDOS Creator, Loadfont, Player/Missile Creator, and lots more. 26 programs.

U39 - Diskcoat, Diskscan, Stripper, Tiny List, Superdupe, Gamebox, NoDOS, Sound Effects, XL Fix, Creator, and many more. 32 programs.

U40 - Translator Disk - This is Atari's original translator disk - it lets you run some older Atari programs that won't run on the XL/XE computers. There's a different Translator on each side of the disk. If one won't work, the other should. If you don't already have this disk, you need it.

U41 - One side of this disk is viewers and utilities for Koda (Microillustrator) pictures. The other side is full of programs for the Atari 1020 printer/plotter. 41 programs.

U42 - Purge, Superfont, Modem, Cassette to Disk, Flicker, Diskpeek, Bounce, Bar Chart, Picture Printer, Maxicopy, Maximenu, and many more. 33 programs.

SAGAMORE SOFTWARE

U43 - Sector Copy, Animate, Protect, Unprotect, Hex to Decimal, Disk Index, Sunswap, Lable Master, Super Directory, and lots more. 36 programs.

U44 - Cartdupe, Copyall, Ultradupe, Quick Edit, TV Test, Grids, Sound Mixer, Convert DOS 3, Copyfile, Voice IO, Fastkey, and more. 21 programs.

U45 - Label Print, Printer Dump, Lable Plus, Super Label, Lister, Directory Label, Banner, Memdump, Cartcopy, Fillread, Bootcopy, and others. 37 programs.

— U46 - Daisy Dot Fonts - these can be used with Daisy Dot, Daisy Dot II, or Dot Magic. None of the fonts on this disk are on the other disks. Fonts include Barnum, Broken, Cable, CCCP, Crystal, Elegant, Futura, Gothic, Hand, Hotdog, Huxley, Parisian, Times, Symbols, Playbill, and LOTS more. 60 fonts.

U47 - CPR - teaches your how to perform Cardio Pulmonary Resuscitation.

U48 - Visicalc Templates - A bunch Visicalc worksheets converted from IBM.

U49 - Side A has GOS (Graphic Operating System) which is a preview of a GEOS-like interface for 8-bit Ataris. Side B has Electronic Checkbook.

U50 - Fishing Database - Log book keeps track of when, where, and how you catch your fish and makes recommendations. Also lets you draw lake maps. Has many other features and a sample database.

U51 - Side A has Chicksoft Disk Utilities which is an MS-DOS-like command line interface for use with DOS 2.0 or 2.5 (and probably ADOS.) Side B has Bootdos, Microdos, Diskio (demo), Doscus, Peaks, Emulate (a translator), and Magnifile. Most of these have instruction files.

U52 - Form Letters - 99 form letters for business and home use. Just load into your word processor and fill in the blanks. Converted from IBM.

U53 - Freewill - A do-it-yourself will kit based on California code (which is included.) May or may not be legal in your state. Converted from IBM.

— U54 - Ultimate Graphics File Converter, Copyfile, Checkbook, Calendar Maker, TrackStack, Financial Calculation Program, Upgrade 256K Rambo to 512K, and others. 10 programs.

U55 - A desktop publishing program from Germany. Lots of pictures and fonts included.

U56 - Bowling Assistant - Keep track of your team's bowling records (or just your own, or your whole league's!)

SAGAMORE SOFTWARE

U57 - General Ledger - A complete double-entry accounting system from Australia. You should know something about accounting to use this program. Manual and tutorial on the disk.

U58 - Calorie and Nutrition Guide - Keeps track of what you eat each day. Give calory and nutrition information. Large food database. Manual on the disk.

U59 - Genealogy - Excellent family tree database. Prints pedigree charts and family group sheets.
Spanish - A series of lessons to help you learn to read and write in Spanish.

U60 - 49 different 8x8 Atari fonts to use with different programs.
Pixel Artist Deluxe V 1.3 - A paint program that's better than MicroPainter.

U61 - Side A has Iconvert which converts Print Shop icons to .PSF format a diskful at a time, and Disk Index - an enhanced disk cataloging program. Side B has CAD XE which is a new CAD program that requires a 130XE. Written in Pascal.

G62 - MultiTasking Operating System - run more than 1 program at a time. Requires at least 128K RAM.
LeBreak Plus and LeBreak Plus Companion - An ATASCII text editor that lets you animate text.

G63 - WEAK is a graphic printer utility from Germany. It's in German, but not too hard to figure out.
Car Help - helps you figure out what's wrong with your car.

G64 - Prizm Artist - A new program that allows you to show 256 at once. Includes a slide show program.
Snapshot/Juggler - Lets you load 2 programs at a time. Requires at least 128K RAM.

G65 - Three new versions of Textpro word processor - Textpro Plus 4.0m, Textpro 4.5LD for those who need to locate Textpro in low memory, and Textpro 4.5XE for those with a 130XE or other extended RAM.

G66 - Datsy Dot III - the latest and greates version of Datsy Dot Print Processor. Includes new DDM fonts.

D17 - Applekill, Balldrop, Ballsong, Camelot, Hollywood Medical, Lucasfilm, Medieval, Van Halen, and more. 17 programs.

D18 - Side A has some Movie Maker movies with a player program. Side B has a Max Headroom talking head demo.

TYPESETTER GRAPHICS

These are Print Shop Icons that have been converted to use with Xlent Software's Typesetter and Rubber Stamp programs.

T01 - A bunch of Peanuts pictures, Madonna, Spy vs Spy, and lots more. 94 icons.

T02 - A bunch of flags, military stuff, Beetle Bailey, Fred Bassett, Max Headroom, Hagar, Garfield, Mickey, and more. 94 icons.

T03 - Several Garfield, lots of Atari, some international symbols, Ninja, Playboy Bunny, and more. 94 icons.

T04 - 94 more icons.

T05 - 94 more icons.

T06 - 94 more icons.

T07 - 94 more icons.

T08 - 94 more icons.

T09 - 94 more icons.

T10 - 94 more icons.

T11 - 94 more icons.

MUSIC

These are music files created with the Advanced Music System. A player is included on each disk.

M01 - Souza, 76 Trombones, Blowin' In the Wind, Dust In the Wind, The Rose, TV Medley, Amazing Grace, some Classical, lots more. 25 songs.

M02 - Axel F, Ghostbusters, Raiders, Munsters, Muppets, Peanuts, Eye of the Tiger, and others. 16 songs.

M03 - Dock O' the Bay, Yesterday, House of the Rising Sun, Coke Song, In the Mood, Superman, Soda Rag, Southern Nights, and more. 24 songs.

M04 - Thriller, Beat It, Flashdance, Charlots of Fire, Dueling Banjos, ET, Money For Nothing, Superman 3, Star Trek 2, Happy Days, and lots more. 22 songs.

M05 - A whole bunch of Christmas songs. 41 of them as a matter of fact. Also Witchy Woman (how'd that get on here?) (For more Christmas music see disk #19.)

M06 - Some classical stuff, a couple more Ghostbusters, Take the A Train, Bookends, Comfortably Numb, I Can't Drive 55, Puffin' On the Ritz, and gobs more. 27 songs.

M07 - This disk has 21 Beatie songs. What more can I say?

M08 - Sussidlo, Let's Dance, Jump, Start Me Up, Shake It Up, You're A Hard Habit To Break, and more. 15 songs.

M09 - Under Pressure, Georgy Girl, Girls Just Wanna Have Fun, My Sharona, Amadeus, American Pie, Light My Fire, and others. 17 songs.

M10 - Hitchcock Theme, Twilight Zone Theme, Halloween, Halloween II, Cheers, NASH, Dragnet, Hill St. Blues, Hawaii 5-0, A-Team, Bond 007, and lots more. 24 songs.

M11 - Say Say Say, Synchronicity II, Billy Jean, Dr. Heckle and Mr. Jive, Nadia's Theme, and others. 14 songs.

M12 - Time After Time, Maniac, Footloose, Cold As Ice, Gloria, In the Mood, Telephone, Run Like the Devil, and more. 14 songs.

M13 - Lots of Ragtime songs plus Curly Shuffle, Woodchopper's Ball, Stray Cat Blues, Flight of the Bumble Bee, and others. 20 songs.

SAGAMORE SOFTWARE

M14 - Classical Gas, Bohemian Rhapsody, Monkees Theme, Goonies Theme, Roxanne, Pink Panther, Yakety Sax, Suncopated Clock, Baby Elephant Walk, and more. 28 songs.

M15 - Spanish Harlem, Volare, O Sole Mio, Man of La Mancha, King and I, Sunrise Sunset, Fiddler On the Roof, Good Night Irene, and others. 27 songs.

M16 - Alley Cat, September Song, My Little Chickadee, Midnight Special, The Way We Were, Stony End, and other gems. 26 songs.

M17 - This disk is mostly Classical music including Nutcracker, some Chopin, and lots more. 32 songs.

M18 - More classical music, this time Bach, Beethoven, Mozart, Vivaldi. 21 songs.

M19 - Another disk full of Christmas music. This one has 43 songs. (See disk #5 for more Christmas music.)

M20 - The Long Run, Ruby, Lucille, Music Man, Proud Mary, Lvin' Eyes, Like a Virgin, and more. 24 songs.

M21 - Surfin' USA, In-A-Gadda-Da-Vida, California Girls, Good Vibrations, Allentown, Gilligan's Island, WKRP, Panama, Downtown, On Broadway, Cabaret, Budweiser, and lots more. 25 songs.

M22 - Mandy, Fire and Ice, Kiss An Angel Good Morning, Keep the Faith, and other goodies. 27 songs.

M23 - Night Moves, Lady Godiva, Night Fever, Major Tom, Summer Nights, Dream On, Running With the Night, and others. 18 songs.

M25 - A whole bunch of Star Wars songs, + Dream Weaver, Nine To Five, King of Pain, O Sherry, and more. 21 songs.

M26 - The Wall by Pink Floyd. This is the entire album on a double-sided disk. 26 songs.

M27 - Side A has A/M XE which loads a disk-full of songs into the memory of a 130XE and plays any song instantly. Side B has Deadsongs - 6 Grateful Dead songs and a text listing of all of the Grateful Dead songs.

Seasons Greetings

From all of us at Sagamore Software!

PRINT SHOP

PS01 - Print Shop Graphics - 245 Print Shop graphics.

PS02 - Print Shop Graphics - 245 more Print Shop graphics.

PS03 - Print Shop Graphics - 245 more Print Shop graphics.

PS04 - Print Shop Graphics - 245 more Print Shop graphics.

PS05 - Print Shop Graphics - 245 more Print Shop graphics.

PS06 - Print Shop Graphics - 245 more Print Shop graphics.

PS07 - Print Shop Graphics - 245 more Print Shop graphics.

PS08 - Print Shop Graphics - 245 more Print Shop graphics.

PS09 - Print Shop Graphics - 245 more Print Shop graphics.

PS10 - Print Shop Graphics - 245 more Print Shop graphics.

PS11 - Print Shop Graphics - 245 more Print Shop graphics.

PS12 - Print Shop Graphics - 245 more Print Shop graphics.

PS13 - Print Shop Graphics - 245 more Print Shop graphics.

PS14 - Print Shop Graphics - 245 more Print Shop graphics.

PS15 - Print Shop Utilities - Side A has Packtool plus 5 libraries of Print Shop graphics to unPack and PSPrint - prints out the graphics from a Print Shop disk. Side B has Flipper, Shopcon, PS Labels, Pshop Utilities, and 9 Print Shop graphics in the .PSF format.

PS16 - Side A has Icon Shop - a Macropaint type program to create or modify Print Shop icons. Side B has Shoptool which converts Print Shop icons to DOS format files (with .PSF extender) and .PSF files back to Print Shop format. It also has PS Pic which converts Print Shop icons into Microwillustrator files, and PS P13 which loads Print Shop icons or Screen Magic files, Koala or Microwillustrator files, and lets you overlay text or another picture.

PS17 - Side A has Iconvert - converts a whole disk full of Print Shop icons to .PSF format 64 at a time. Side B has Artshop which deletes & renames PS files, converts PS to Macropaint & vice versa, and formats Print Shop or Macropaint disks. Also included is P1a Utility for creating and modifying Macropaint (Koala) screens.

SAGAMORE SOFTWARE

- PS18 - 114 Print Shop graphics in the .PSF format including a map of each of the 50 states.
- PS19 - Borders and Fonts - 40 fonts and 93 borders to use with Print Shop.
- PS20 - Borders and Fonts - 45 fonts and 27 borders to use with Print Shop.
- PS21 - Borders and Fonts - 34 fonts and 53 borders to use with Print Shop.
- PS22 - Print Shop Graphics - 256 Print Shop Graphics.

DISK OF THE MONTH

These disks were released monthly by a large user's group. Each disk has a potpourri of public domain programs - games, utilities, applications, etc. Their disks were single-sided so we've put 2 of their disks on each of our disks. There are too many programs on each disk to list them, so you'll have to be surprised. Some programs are on our other disks, and some are not.

DD/M01 - Disk of the Month - January and February 1986

DD/M02 - Disk of the Month - March and April 1986

DD/M03 - Disk of the Month - May and June 1986

DD/M04 - Disk of the Month - July and August 1986

DD/M05 - Disk of the Month - September and October 1986

DD/M06 - Disk of the Month - November and December 1986

DD/M07 - Disk of the Month - January and February 1987

DD/M08 - Disk of the Month - March and April 1987

DD/M09 - Disk of the Month - May and June 1987

DD/M10 - Disk of the Month - July and August 1987

DD/M11 - Disk of the Month - September and November 1987 (there was no October.)

DD/M12 - Disk of the Month - December 1987 and the June bonus disk.

COMPUTER LANGUAGES

L01 - ANTIC FORTH language with a tutorial and complete documentation on the disk.

L02 & L03 - AESA FORTH language with the source code and complete documentation plus some miscellaneous FORTH files. This is a 2-disk set so be sure to order both disks.

L04 - Side A has the DVC 'C' language and demos. Side B has the ACE 'C' language and support files.

L05 - Deep Blue 'C' language with support files. This is one of the best versions of the 'C' language.

L06 - Turbo BASIC - this is a much better version of BASIC than Atari BASIC. Includes a compiler and complete documentation on the disk. This version will work only on the XL/XE series of computers.

L07 - Compiled Turbo BASIC programs - this is a bunch of BASIC programs (games, utilities, etc.) that have been compiled with the Turbo BASIC compiler so they execute much faster.

L08 - 6502 Machine Macro Compiler - this is an excellent assembly language compiler.

L09 - Turbo BASIC for Atari 400/600 computers - This is the same as disk L06 except it will work with the non-XL/XE computers.

L10 - DVC "C" Compiler - Super fast "C" compiler with support files and documentation. Side B has a "C" tutorial.

L11 - BASIC Programming Part 1 - A series of tutorials to teach you to program in BASIC.

L12 - BASIC Programming Part 2 - More BASIC programming tutorials. Also a DOS 2.5 tutorial.

L13 - Side A has The Nanoprocessor which is a binary programming tutorial. Side B has Atari Fig-FORTH version 1.4e (originally published in SoftSide Magazine. Anyone remember that one?)

L14 - Draper Pascal - A shareware version of the PASCAL language which allows you to create, compile, and execute programs written in PASCAL. Also allows the use of sound and graphics. Instruction manual is on the disk.

EDUCATIONAL

E01 - Side A has 12 educational programs including Morse Code, Preschool, Function, Typing, Math programs, etc. Side B has an excellent Geography Quiz program.

E02 - Several math programs plus Concentration, Word Quiz, Bible Trivia, History Test and others. 18 programs.

E03 - Chemistry Drill, Calorie, Boyle's Law, Mole, Alcohol, Chemistry Help, Hurricane, Volcano, and more. 20 programs.

E04 - Metrics, Sinewave, Algebra, Poetry, a bunch of Math programs, several Astronomy programs. 27 programs.

E05 - Almost all Math programs including Animath, Mathman, Premath, Towers of Hanoi, Math Attack, Multiply, Addition, and others. 18 programs.

E06 - Some Music, Morse Code, and Geography programs including Notemaster, Musician, Morse, Morse Code, Geoquiz, Math Drill, World Capitals, and more. 19 programs.

E07 - Speed Reader, Mad Libs, Zahrain, Spanish, Word Find, Word Hunt, Scramble, and a bunch of Hangman games. 24 programs.

E08 - Lots of Alphabet and Spelling programs including Alphabet Train, Dragon's Breath, Spelling, Spelling Bee, Spelling Test, and gobs more. 20 programs.

E09 - Fraction, Alphablock, Math Fun, Word Search, Math Wars, Number Line, Word Scramble, Chemist, and others. 22 games.

E10 - Civil War, Old MacDonald, Russian Roulette, Nuclear Plant, Geometry, Biorhythms, Calories, Simon, Trig, and more. 22 programs.

E11 - Mathman, Drawblox, Flash, Easy Math, Greasy Spoon IQ Test, Mastermind, Slide, Puzzler, and others. 21 programs.

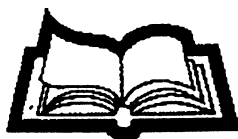

E12 - Capitals, Spanish Flashcards, Beginning Typing, Math Package, Marooned, Candle, Premath, Wordhunt, Chemistry, Cryptographer, and more. 21 programs.

E13 - Counting, World Capitals, Scripture Chase, Metrics, Math Teacher, Mad Libs, Key Panic, Speed Reading, The Sun, Geometric Area, and lots more. 21 programs.

E14 - Tank Math - an arcade-type math game. Also Reverse, Missile Math, Multiplying Fractions, Solar System Scanner, Money Pouch, Word Search Generator, Word Search - You Solve It, and Making Change. 9 programs.

E15 - Word Builder - Combination vocabulary quiz and trivia game. Manual on the disk.

French Lessons - A series of lessons to help you learn to read and write in French.

KOALA PICTURES

Each disk has a viewer program on it.

P01 - Bldini, Heather, Nixon, Farside 2 and 3, Mickey, Allen, Madonna, Santa, Iron Maiden, Albert, Ultima, and lots more. 40 pictures.

P02 - Ernie, Jack Tramiel, ET, Smurf, Apollo, Yoda, Yogi, Mummy, Tron, Castle, and bunches more. 44 pictures.

P03 - Star Trek, Jimmy Cricket, Smurf2, BME2, AC DC, Archon, Chicago 7, Tardis, Garfield, ZZtop, Beatles, Odie, and gobs more. 41 pictures.

P04 - Opus, Hosers, Daffy Duck, Darth Vader, Snoopy, Dr. Doom, Spock, Bond, Mickey, John & Yoko, Star Wars, Spy VS Spy, and lots more. 40 pictures.

P05 - Rocky, Garfield, Bo Derek, Hulk, ET, Star Trek, Eyeball, Klingon, Ghostbusters, Woody Woodpecker, and others. 42 pictures.

P06 - Hitchhiker, Tumbleweeds, several Tron pictures, Cincy Reds, Cube, Ghostbusters, Dragon, Karate, and more. 41 pictures.

P07 - Spock, Rambo, Santa, Scarface, Cyndi, Prince, Billy Idol, Coits, Elvis, Clint, Spiderman, Conan, Popeye (several), Mario Bros, ATV, and a bunch more. 47 pictures.

P08 - Gizmo, Ghostbusters (several), Metal (several), The Thing, Garfield, Commie, Mars, Monster, and more. 49 pictures.

P09 - Tardis, Spock, Odie, Daffy, Reagan, Jesus, Billcat, Pooh, Hulk, Max Headroom, Mad Max, Spy VS Spy, Pengo, Star Wars, Shuttle, and others. 45 pictures.

P10 - Madonna (2), Garfield (2), Snoopy, Ninja, Klingon, Yoda, Fred Bassett, Escher, Superman, Lennon, Cosby, Dinosaur, James Bond, and more. 56 pictures.

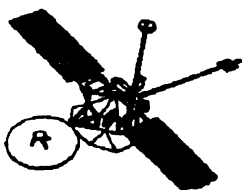

P11 - LOTS of Disney picture + Care Bears (2), Challenger, Spock, AGA, Yoda, Ghostbusters, Bruce Lee, Busch, Linus, and others. 41 pictures.

P12 - Side A has several maps, several Peanuts pictures, Lite Beer, and others. 28 pictures on Side A. Side B has 10 fantastic Steve Dong pictures.

P13 - Side A has 9 pictures of classic cars and a slide show program that loads them all into memory and shows them at any speed you want. Works only on 130XE or other Atari computer upgraded to 128K or more. Side B has 18 Star Trek pictures.

COMMUNICATION PROGRAMS

C01 - Miscellaneous Modem Programs - this disk has an assortment of handlers, modem programs, and odds & ends for modem users.

C02 - Side A has Term 4.2 for Hayes compatible modems. **Side B** has Term 1030 for the Atari 1030 modem.

C03 - Side A has VT100XL, a terminal emulator for XL/XE computers. **Side B** has 835/1030 Scanner.

C04 - Kermit for the Atari. Works best with an 80 column display.

C05 - FOREM BBS - the complete FOREM 20M BBS program for starting your own bulletin board system. Has complete documentation on the disk.

C06 - Side A has A/MIS1030 - a bulletin board program for the 1030 modem. **Side B** has A/MIS X/M301 - a bulletin board program for the X/M301 modem.

C07 - Side A has A/MIS1200 - a bulletin board program for 1200 baud modems. **Side B** has W/AUG Adventure - an online adventure game for bulletin board systems (requires SpartaDOS.)

C08 - Oasis BBS - another excellent bulletin board system.

C09 - PC Term - a modem program that supports PC Pursuit.

C10 - Masterm - an excellent BASIC modem program. **Side A** has a version for modems that use the 850 interface, and **side B** has a version for the 1030 modem.

C11 - Amodem - Two versions of Amodem - **side A** has Amodem Plus, and **side B** has Amodem version 4.2.

C12 - Side A has Amodem 7.5 for the SX212 modems. **Side B** has Amodem 7.2 for most other modems.

C13 - Side A has Keith Ledbetter's excellent Express program for Supra modems. **Side B** has Express for APP modems.

C14 - Side A has Keith Ledbetter's excellent Express program for the SX212 modem. **Side B** has Express with no handler so you can add your own handler if you need something different for your modem.

C15 - Side A has Keith Ledbetter's excellent Express program for the 1030 modem. **Side B** has Express for SpartaDOS users.

SAGAMORE SOFTWARE

C16 - Side A has Determ - an excellent program that uses pull-down windows and allows you to play Breakout while you're downloading. Side B has ET Modem Version 1.1.

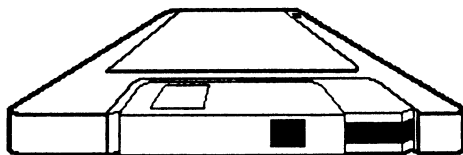

C17 - Side A has Determ for the X/M301 modem. Side B has Determ for modems that require the 850 interface (or similar interface.)

C18 - Side A has Determ for the SX212 modem. Side B has Determ for the APP modems.

C19 - Side A has Bobterm - an excellent modem program from Bob Puff. Side B has Term80 - an 80 column terminal emulator (monitor recommended but not required.) Also included are some Determ modification and help files.

C20 - Chameleon Terminal Emulator - terminal program for Atari 835 and 1030 modems, and those that use the 850 interface. Supports 80 columns, and includes Kermit and V-52 terminal emulations. Documentation is on the disk.

C21 - Bobterm version 1.2 - New, improved version of Bobterm with more extensive instructions.

GOT AN ATARI ST? Or an IBM compatible or a Macintosh?

Around Jan. 1, 1991 we will be publishing our new catalog of software for the Atari ST/TT family of computers. We are also working on catalogs for IBM compatible and Macintosh computers, so if you have one of these (or know someone who does) let us know and we'll put you on the appropriate mailing list. (Spectre 128 users, too!)

ANALOG DISKS

These disks have all of the programs from each issue of ANALOG magazine. If an issue's disk was a single-sided disk, we put 2 issues together on one double-sided disk.

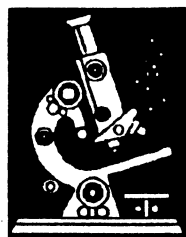

Most of these programs don't have documentation, so if you don't have the magazine, you will have to order it from ANALOG.

Analog #9
Analog #10, 11 (both on 1 disk)
Analog #12, 13 (both on 1 disk)

Introducing....

UPDATE

Monthly disk collection!

Each month we will release a double-sided disk packed full of the latest and greatest programs for your Atari 8-bit computer! Every month you will receive a new disk containing the latest games, applications, and utilities written by the top public domain and shareware authors.

The programs will be ARCD so we can squeeze more programs on each disk. An auto-loading unARCDing program is included on each disk to make it easier to unpack the programs.

Update will be available by subscription only. A 6-disk subscription is \$24.00, and a 12-disk subscription is only \$39.00 (save \$9.00).

Our first issue will be the December 1990 edition. Subscribe now so you don't miss out.

Send your check or money order to:
